CU Boulder Police Department

Introduction to the Forensic Experiential Trauma Interview

✓ This course is a bundle and includes the online FETI Methodology course with purchase.

What is FETI®?

Certified FETI® is the founding and governing body of the official Forensic Experiential Trauma Interview, a science and practice-based interviewing methodology informed by the latest research on the neurobiology of trauma and memory.

The Forensic Experiential Trauma Interview (FETI®) provides interviewers with a science-informed interviewing framework that maximizes opportunities for information collection and accurately documents the participant's experience in a neutral, equitable, and fair manner.

About the Course

The Introduction to FETI course is one day of in-person instruction of the Forensic Experiential Trauma Interview methodology. At the core of the course is a live classroom experience with a FETI instructor.

This in-person course comes bundled with access to the online FETI Methodology course that offers the opportunity for continued education and/or Basic Certification credit.

While this course does satisfy the prerequisite for Practical Application of FETI (Online and In-person), it does not provide Basic Certification Credit.
